## LIND IS NAMED AMID STORMY HOOTS CHEERS

Favorite Son of Minnesota,  
Although He Declared  
He Did Not Want  
to Accept

### PLATFORM ADOPTED SCORES ADMINISTRATION

Man Named Said by His Son  
Will Not Accept the  
Nomination

ST. PAUL, July 28.—Former Governor Lind will not under any circumstances accept the nomination for governor, according to his son Norman, at Everett Washington where Lind is visiting. A special dispatch from that place says that Lind refuses to comment on the action of the convention. "I have nothing to say," he is quoted as saying. His son however made a definite statement that not only was his father greatly annoyed by the action of the convention, but under no circumstances would he accept. The special says Lind will leave in a few days for Alaska and that his itinerary will probably include a trip abroad, not to return to Minneapolis until September 1.

**LIND REFUSES STATEMENT**  
EVERETT, Wash., July 28.—Former Governor John Lind refused to discuss the action of the Minneapolis democratic convention. He said he would have nothing to say until a letter from his partner confirming the action is received but intimating that he was fearful that early reports of his nomination were made as a ruse. When pressed for an answer he said politics would not interfere with his travel plans. He said:

"I cannot understand the reported action of the convention. I have repeatedly said that I could not and would not accept the nomination. I stated in a letter to the chairman of the State Central Committee some weeks ago that my decision not to re-enter politics was final and irrevocable, and my attitude remains unchanged. That is all I care to say at this time."

MINNEAPOLIS, July 28.—Democratic storm signals were flying today when the state democratic convention met today, torn to shreds by the tempest of feeling which was let loose over the nomination of John Lind for governor and the attempt to introduce a direct resolution in the party platform favoring county option. For more than three hours up to the very moment of adjournment there was no let up in the scene of disorder except for a few minutes when the chairman made himself heard after terrific pounding with a piece of 2 x 4 scuffling which he used as a gavel. Mutterings of trouble were heard early in the day and unusual conditions existed.

Delegates were unanimous in declaring John Lind one of the best democrats of Minnesota. All his friends were but divided into two factions. One declared Lind must be nominated despite his repeated refusals to be a candidate and his flat declaration, in a telegram from Portland yesterday, that he would not accept the nomination if made; the other faction argued that Lind had nothing to gain by nomination that was of sufficient importance to have his wishes heeded by the convention. The latter faction argued and shook their fists at the chairman and at the other side while those bent on nomination of Lind howled and hissed and completely blocked the proceedings until by sheer force of noise and enthusiasm they won their point and secured the nomination. Even friends opposed to the nomination took the advantage to make the motion unanimous. They wanted an opportunity to submit the nomination to Lind by telegraph and await his answer, and to take a recess until eight o'clock if necessary, but this failed, and finally the nomination was made unanimous and the convention adjourned at 6 p. m.

On the matter of resolutions there was no contention except for a plank on county option. Anti-county optionists were in the majority in the committee on resolutions. When voted down they inserted provisions for the initiative and referendum which the committee declared would answer the same purpose. There was no fight on other resolutions. On national issues the platform says:

"We deplore the weakness and timidity of President Taft, who with his his campaign promises still fresh, but

### ANGRY THROG MOBS THE UMPIRE

ZANESVILLE, O., July 28.—Umpire Walsh was attacked by an angry crowd and severely beaten today after Zanesville had won a ten inning game by the score of six to five. Zanesville partisans declared that Walsh had given long scores of decisions against the local club.

nominated by predatory interests, weakly failed to use the tremendous force of his high office to force the recreant congressional party to do its duty in reforming the tariff. No subsequent effort to fulfill party promise can atone for this supreme failure to restore public confidence. It condemns the retention of Halliger as secretary of the interior and denounces the discharge of Gifford Pinchot from the office of Chief Forester as a national crime. The democrats of Minnesota commend the insurgent republicans of Minnesota for their vote on the Payne tariff bill. The convention was called to order by Frank A. Day who introduced Congressman W. S. Hammond who was elected permanent chairman.

### The Keynote Speech.

MINNEAPOLIS, July 28.—Congressman W. S. Hammond, temporary chairman of the Minnesota State Democratic convention which met here today delivered the keynote speech. He began by deploring the death of the late Governor John A. Johnson. He scathingly denounced the Aldrich tariff bill, mentioning specifically the lead and wool schedules and pronounced the tariff commission a mock political subterfuge a body purposely created without power of action. He also devoted considerable attention to a definition of Cannonism.

County option and other local issues were not mentioned. He said in part:

"The people of this country time and again decided by substantial majorities that the present method of

## FIGHT ON FIRE AT HOLBROOK IS EFFECTIVE

Blaze in an Old Stope Is Met  
With Prompt Action and  
Splendid System on the  
Part of All Hands.

What seemed for a short time to be a serious mine disaster happened in the Holbrook Wednesday afternoon and night when fire and smoke broke out in an old stope which was gubbed up some two years ago. The fire originated in old timbers and the sulphur that was in the go. Soon after its discovery the general superintendent had mechanics laying water mains to the scene of the fire, from the numerous water pipes of the company's fire system on the surface. Miners were also not to work building temporary bulkheads of canvas and tarp, in order to shut off all draft.

The fire started in what is known as 45-35 on the 400 level, which has been under the watchful eyes of the mine bosses during the past two weeks. A hose was run down the mainway in the rear of Superintendent Woodman's residence, and was soon spraying water above the fire. But it did not seem effective hence the laying of pipe lines to the scene.

About 1 o'clock Thursday morning six of the fire fighters were brought to the surface, overcome by the carbonic gas caused by the smoke and heat. Dr. Miner was soon on the scene, and the men after being revived were sent home. After this Dr. Miner went down on the 300 level where he was ready to administer to any other cases right on the spot. The first to be overcome was Walter Thomas, a pipe man; then came J. B. Johnston, followed by Frank Barnes; then they commenced coming up fast, until Dr. Miner reached the scene.

Foreman Harry Barkdoli was on the go until after midnight and no one could have performed harder work than he. Ed Kinsey, swing foreman, was overcome while dragging the hose through the smoke on the 200, and had to retire at 10 o'clock. But all hands were willing to join in the fight, and fresh men were constantly taking the places of those overcome by the strain coupled with heat and smoke. All day and night the smoke could be seen coming up through the raise directly back of the old hospital site.

The fire does not interfere with mining the regular output, which was kept up steadily throughout the night as only two stopes have to be temporarily abandoned on account of the smoke.

## CRIPPEN HAS CONFESSED TO HIS IDENTITY

Is Belief Following Wireless  
Messages from Steamer  
Montrose as None on  
Board Knew Him

### CAPTAIN VIA WIRELESS SAYS HE IS ABOARD

Officers and Scotland Yard  
Detectives Ready to  
Receive Him.

### CRIPPEN IS LOCATED ABOARD THE MONTROSE

QUEBEC, July 28.—The following wireless message was received from Point Armour at 7:30 p. m.: "Crippen on board the Montrose inward bound, 200 miles east." The dispatch is presumed to be from the steamer Laurentia. The second is presumed to be from Inspector Dew, addressed to Detective Walsh asking leave from the authorities to land at Father Point. The permit was granted.

### FATHER POINT, Quebec, July 28.

The captain of the steamship Montrose, nearing port after a voyage across the Atlantic flashed to the colonial government at Ottawa a wireless message which, according to apparently authoritative reports here is that he had incontrovertible evidence of Dr. Crippen's presence aboard. The first wireless message received from the Montrose was guarded with great secrecy, yet reports here would not down that the captain had wired that he was sure of his man and asked for instructions. Since none on board the Montrose knew Crippen it may mean that he has confessed his identity. After receipt of the message the wireless operator again began sending messages to the Montrose. They are supposed to have been instructions from Ottawa but their text was not learned. Three officers of the provincial police are literally sitting at the feet of the wireless receiver waiting word from the Montrose.

On board Montrose at sea by Marconi Wireless via Father Point, Quebec. Associated Press. New York: Suspected persons answering to the police description of Dr. Crippen and Miss Leneve are on board. No arrests have been made. The other passengers who are all continental, are in ignorance of the situation. The Montrose on Thursday was 150 miles east of Belle Isle. Signed Llewellyn Jones, Marconi operator. His message leaves little doubt as to the alleged murderer and his paramour being captured.

## TROOPS REACH SCENE OF RAILROAD RIOTS

### CITIZENS OF DURAND CALL MASS MEETING AND PROTEST AGAINST SOLDIERS.

DURAND, Mich., July 28.—Upon the arrival here of four companies of the national guard to prevent disorder that might arise in connection with the Grand Trunk strike a mass meeting of citizens was held to register a protest against the governor's action in ordering out the troops.

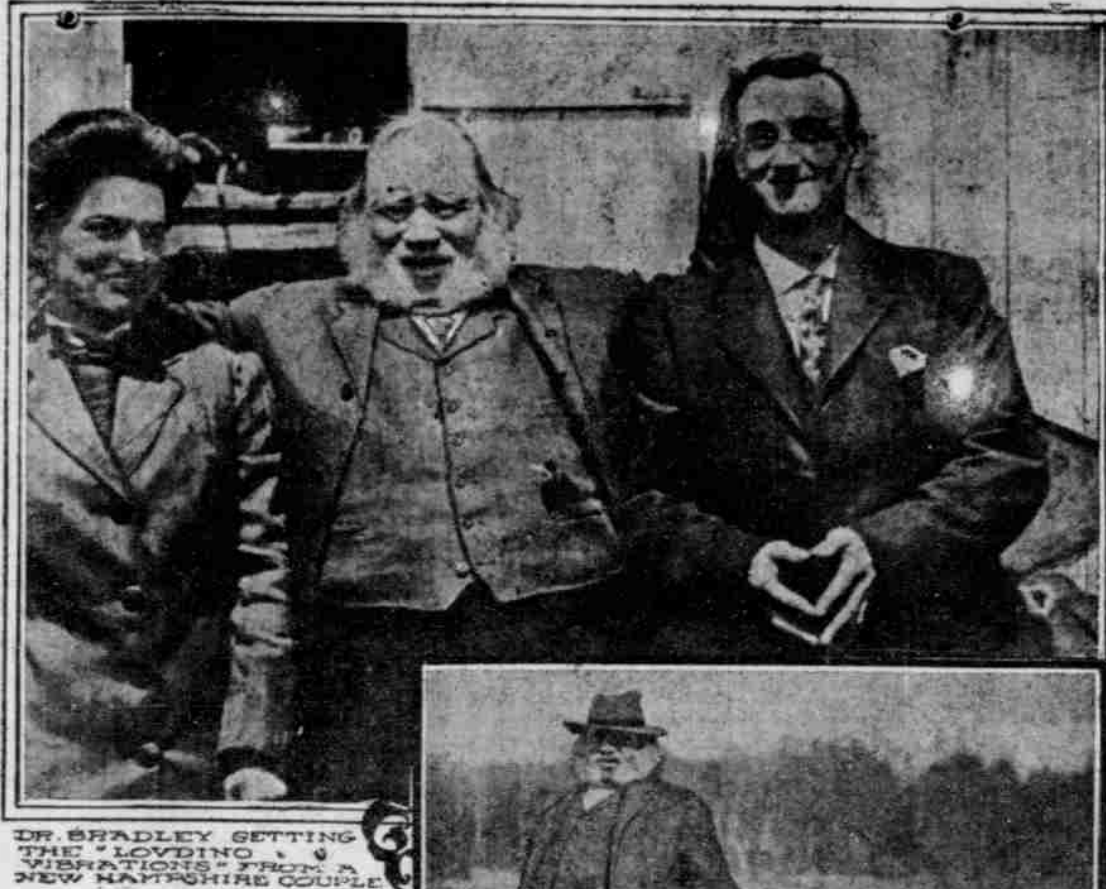

The strikers, it is said, are offering strike breakers the regular allowance from the strike fund and many are deserting the company including a brakeman on the train carrying the troops leaving his post at Pontiac. There was no trouble today.

### REMARKABLE WRECK.

PUEBLO, July 28.—A wreck on the Denver and Rio Grande near Cuba today will go down as the most remarkable in Colorado railway annals. The engine and eight passenger cars left the track and ran for a long distance on the ties, but not one was overturned and not a passenger was so much as scratched.

**THE WEATHER.**  
For Arizona—Partly cloudy, with local showers in the north.

## This is the Affinity Doctor, Whose Business Is to Find Mates For the Lovesick Souls

DR. BRADLEY GETTING THE "LOVING VIBRATIONS" FROM A NEW HAMPSHIRE COUPLE.

## PHOENIX HAS A DEVASTATING FIRE THURSDAY

Capital City Suffers Loss of  
Thirty Thousand Dollars,  
But Is Saved Most Disastrous  
Fire in History.

PHOENIX, Ariz., July 28.—(Special.)—What threatened to be the most serious fire in the history of Phoenix was narrowly averted by the prompt action of the fire department tonight.

The Redwell Music Co. building was discovered to be on fire at about 10 o'clock this evening. The establishment of Eastering & Whitney was in such danger that all of the valuable caskets were removed for safety. For a while it was thought the Ford hotel must go, but the prompt action of the fire department saved a big loss to the city. Damage and loss is estimated at thirty thousand dollars.

## TAFT JUMPS FROM JUNKET INTO TURMOIL

WORK PILED UP PROMISES EXTREMELY BUSY PERIOD FOR THE PRESIDENT

BEVERLY, Mass., July 28.—Taft's ten day cruise along the Maine coast ended at 3 o'clock this afternoon, when the Mayflower dropped anchor in Beverly harbor. Immediately after coming ashore he read the details of the Ohio convention. The wireless messages reaching him yesterday were decidedly meagre.

It is not likely that Taft will make any formal comment upon the Ohio situation. He sent a telegram congratulating Warren G. Harding the nominee however.

The president has a busy time ahead. Many engagements are to be made and it is said there will be a continuous stream of prominent visitors to Beverly.

The executive offices are to be moved from the board of trade rooms to a colonial mansion on the water front, leased for the purpose.

### GOOD ROADS CONGRESS.

NIAGARA FALLS, N. Y., July 28.—A record-breaking attendance marked the opening here today of the third annual congress of the National Good Roads association. The gathering will continue in session three days and will be addressed by many men who have been foremost in the movement to promote good roads throughout the country.

### AUTO ENGINEERS.

DETROIT, Mich., July 28.—The Society of Automobile Engineers opened its summer meeting here today for a three days' session. The attendance is unusually large and the programme of more than ordinary interest. Some of the most noted authorities on various technical subjects are scheduled to read papers. The annual dinner will take place this evening.

## M'KAY WISHES TO MAKE TIA JUANA SMART

American Millionaire Declares  
He will Go to Great Lengths  
to Punish for Indignities  
Attending Arrest.

SAN DIEGO, July 28.—D. W. McKay, a millionaire mining man, formerly of Alaska is resolved to have full satisfaction for the indignities to which he was subjected when he was arrested recently at Tia Juana, Mexico, and plainly intimated that this was his last afternoon.

McKay came up from Tia Juana and had a long conference with United States Attorney James E. Wadham. At its conclusion McKay admitted that the question of obtaining redress for what he deems a gross outrage was one of the subjects of discussion. No decision was reached as to the method of procedure, whether he would attempt to get satisfaction through the Mexican government or our courts. Mr. McKay said the treatment he received from the officials at Ensenada was in pleasing contrast with that at Tia Juana. His release was prompt and the fact that only about \$150 American money was required as bail indicated that the court at Ensenada made little of the affair. He does not know when the trial at Ensenada will take place.

## AGED SAILOR KILLS SELF YESTERDAY

LIFE OF MICHAEL WHITNEY FILLED WITH ADVENTURE AFTER TREASURE.

SAN BERNARDINO, July 28.—Michael Whitney aged 74, suicided by shooting himself through the head at the county hospital tonight. He was an old time sailor and participated in several expeditions after buried pirate treasure in his earlier days. The most notable trip he made was as a member of the party on the vessel Rover, sailing from San Francisco in 1879. The vessel was wrecked on an island off the coast of South America. He was rescued after two months of hardship and privation.

## MILLIONS ARE SAVED YEARLY BY EXPERIMENT

Government Dry Farming and  
Tests With Citrus Fruits  
Means Much to California  
and All of West.

WASHINGTON, July 28.—More than a million and a half is being saved annually to the citrus fruit growers of California as a result of the experiments conducted by the department of agriculture in handling and transporting fruits. This was the statement of G. Harold Powell, assistant chief of the bureau of plant industry, who has just returned from the Pacific coast.

Dry farming experiments which he also inspected he considers of the utmost value because they will be the means of spelling success to the settlers who would otherwise reap nothing but failure from their efforts to make the desert bloom.

"From these experiments," said Powell "it will probably be twenty-five years before the department is able to formulate general principles so as to determine precisely the best methods to pursue in dry farming in various sections of this region which covers 400,000 square miles and extends from the Rockies to Central Kansas and from North Dakota to Texas."

## HOPKINS SAYS NO TRUTH IN STORY

TALE THAT THERE WAS PLOT TO NAME HIM HE DENIES ABSOLUTELY.

DENVER, July 28.—Ex-Senator Hopkins of Illinois, disclaims any knowledge of any bribery plot on the part of the democrats to elect him senator. He thought it improbable "The deadlock," he said, lasted from January 21 to May 26, and it is hardly possible that such a thing could remain dark all that time. Maybe there is a motive behind it, having as its object the clearing of the investigation of the trial of the Lorimer bribery cases.

"Certainly Lorimer secured his seat by the most disreputable methods ever heard of in this country."

## MORGAN'S FIST BELIEVED TO BE IN BIG BUY

Kuhn-Loeb Take Over Large  
Holdings of Pearson Syn-  
dicate, Believed Act-  
ing for Morgan

### MORGAN BANK MIXED WITH BUYING CROWD

Financial Interests Believe Big  
Deal Pends for Consum-  
mation Soon.

NEW YORK, July 28.—With the sale of the so-called Pearson holdings in the Rock Island Lehigh Valley, Wabash Missouri Pacific and Hunter & Rio Grand stock, confirmed Wall Street was today asking what the Kuhn Loeb syndicate the purchasers, intended to do with the securities.

Dr. F. D. Pearson and his brother associates acquired the stock late in 1909 and early in 1910 with the dream of a vast transaction. This plan must now be abandoned temporarily at least, but opinion is divided as to whether it will be revived under the new and more powerful guidance.

One member of the purchasing firm said that the plan for the new transaction and purchase does not embrace the control of any properties whose stock was acquired. On the other hand a banker concerned said that the Pearson project is shelved only for the time being. It is believed that the purchasing firm with its allied interests will seek to carry out an idea too big for the Pearson group to swing.

The American members of the syndicate, acting with Kuhn, include the First National Bank, a Morgan institution. The First National is a Morgan institution, but the Morgan banking house itself emphatically denies that it is in any way a party to the syndicate.

It is believed that Kuhn-Loeb will ere long sell to J. P. Morgan & Co the newly acquired Lehigh Valley holdings so that the road will remain in the hands of the Morgan interests where it has always been.

## ROOSEVELT IS FEELING PULSE OF AMERICA

Wants to Find Out How People  
Look at Things Before  
entertaining Opinions on the  
Situation.

OYSTER BAY, July 28.—Before Roosevelt launches on the troubled sea of national politics he will scan his chart with those friends who have already tested the temper of the storm. The colonel's reticence of last night continued through today.

He repeated that it is unavailing to comment on the Ohio convention's action until he has received full reports from the men on the ground but added who these men will be. They are James B. Garfield and Wade H. Ellis chairman of the Ohio republican committee.

Ellis it is thought, will ask Roosevelt to stump the state. The colonel would not say whether he would accept. He has already agreed to speak in Cincinnati September 9, but it is unlikely that he will venture to speak on state issues then.

Gifford Pinchot who is en route to New York will tell the colonel how the west feel towards conservation. The colonel inquired today with interest when Pinchot was due.

### INSURGENTS ICONOCLASTS

HOLTON, Kansas, July 28.—Representative P. P. Campbell, a "stand-patter" of the third Kansas district, in a speech tonight proclaimed the insurgents to be iconoclasts who have taken the course "That has required the least effort, intelligence and denunciation." He declared the Payne bill had increased the country's revenues and made up large deficits.

### RAWN EVIDENCE IN

CHICAGO, July 28.—Taking evidence regarding the death of Ira G. Rawn was concluded at Winnetka Village hall at 12:15. The members of the coroner's jury immediately retired to consider their verdict.
